

Everyone Poops Taro Gomi

I've loved this series from kane/miller since i first read "everyone poops", and have been giving sets of them as baby gifts ever since. they're hysterically funny, they're factual, they appeal to children and provide solid information about topics lots of adults won't even admit exist, let alone talk about. kate hayes is a former award-winning tv news reporter and anchor. she writes about her family's adventures on her blog, adventures in parenting, which earned her a scholastic parent and child magazine parent blogger award in 2010.
